

ALVIN

Rotatrim[®] TRIMMERS

ROTATRIM has earned an international reputation for the highest standards of quality, design and manufacturing. These award-winning, British-made trimmers are durable, versatile, precise, and safe. Using only the finest materials, including Sheffield tungsten steel in its blades, ensures that every

RotaTrim trimmer will provide a lifetime of service – backed up by an outstanding five-year warranty. Alvin & Company has been a proud distributor of RotaTrim trimmers for over 15 years and we are firmly committed to the service and technical support of every RotaTrim we sell. We stock an extensive range of spare parts and our factory-trained technicians are available to assist you with product selection, trouble-shooting and repairs.

ROTATRIM[®] Monorail Series

Rotatrim's intelligent features and reputable quality condensed into an economical version. Suited for light-duty classroom and office work.

- Designed for light-duty volume
- ¾" square chromed steel rail with unbreakable head and end frames
- Self-sharpening cutting wheel. Cuts in one direction only
- Gray MDF gridded baseboard is 7/8" thick x 12" wide
- Transparent clamp strip holds material firmly in place
- Aluminum side rule calibrated in inch and metric
- Adjustable cursor for precision repeat cutting
- Overload plate ensures that trimmer cannot be overloaded

ROTATRIM Technical Series

For cutting extra-thick, extra-dense materials, these industrial strength trimmers are equally at home cutting thin films and tissue paper.

- Self-sharpening tungsten steel cutting wheel
- Cast metal cutting head and end supports
- Chromed steel guide bar, 1½" square
- Aluminum clamping bar with automatic release
- Three pressure rollers and rugged gripper for secure clamping
- Aluminum baseboard, 11" wide
- Cuts in both directions (an overload plate can be removed for bi-directional cutting of thin materials)
- Factory set side rule
- Pull handle mounts to top of cutting head
- Baseboard extension rods for supporting large materials are supplied with models 1550 and above. These removable rods slide into the baseboard to extend the total depth to 28"
- Floor stand and other accessories available
- Shipped in wooden crate, except T650 and T950

ROTATRIM Power Technical Series

Electrically-powered, heavy-duty machines that combine the best features of the Technical Series with a belt-driven cutting head for heavy and continuous workloads.

- Same features and specs as Technical Series
- Cutting head is driven by a heavy-duty electric motor controlled by a foot-operated pneumatic switch. Leaves both hands free for positioning material
- Cutting speed 20 in./sec. (28 lbs./inch torque). High-speed version also available that cuts at 39 in./sec. (16 lbs./inch torque)
- Modular circuit design is user friendly
- Baseboard extension rods for supporting large materials are supplied with models 1550 and above. These removable rods slide into the baseboard to extend the total depth to 28"
- Floor stand and other accessories available
- All sizes shipped in wooden crate

! RotaTrim Trimmers do not cut foam board products.

THICKNESS REFERENCE FOR LAMINATED OUTPUT

Light Duty	Combined thickness up to .014"
Medium Duty	.015" up to .030"
Heavy Duty	.030" and above

Actual results may vary depending on material density and hardness. Please use these figures for reference only.

"Scratch and Dent" trimmers are often available. Please inquire.

ROTATRIM PRODUCT WARRANTY

All RotaTrim trimmers are warranted against faulty workmanship and materials for a period of five years, depending on the model. This warranty does not cover cutting blades, clamp strips, or other plastic and rubber parts that are subject to normal wear and tear. Damages due to improper use, handling, or storage will void this guarantee. Please save the original shipping carton.
